Stowage options

VIKING liferafts are available packed in either high gloss fibre glass containers or versatile valises

Container

The high-gloss rigid fibre glass containers offer the ultimate protection against exposure to the elements. The container can be mounted on deck or on rail.

Valise

Our valises are water resistant and come in a modern black/silver design. The valise can be removed from the boat if security is an issue, or stored away if place on deck is limited.

Grab bag

Depending on navigation area and duration of trip, additional equipment could be required. This is packed in a handy grab bag.
