AlphaTec™ FLASH (EN 943)
AlphaTec™ VPS
SIZE CHART

ALPHATEC SUITS ARE AVAILABLE IN A WIDE RANGE OF SIZES TO FIT MOST WEARERS.

All sizes refer to actual body measurements and not the suit measurements.

Suits are manufactured with allowance for fire turn-out gear to be worn underneath them. If you intend to use the suit with a thinner undergarment (e.g. station wear), you might therefore experience the suit as too big. In this case you may want to consider a smaller size suit. Please pay extra attention to the chest circumference columns in the size chart below.

For any questions, please consult your distributor or contact Ansell, or visit **www.ansell.com**.
